

dpc hero n.: The DPC Hero is a person who gives something of themselves to help others, and in doing so, makes a difference in someone's life. A DPC Hero is empowered and looks to empower those around them. A DPC Hero can be a patient, a family member, a caregiver, or someone from the community.

THERE IS A HERO IN ALL OF US

Dialysis patient Ron Garrett gives back to his community as a federal officer for the Department of Veterans Affairs, a dedicated church member and a committed advocate for advancing quality kidney care. Ron reaches out to newly diagnosed end stage renal disease patients in the Fort Gibson area, telling them about his experiences with dialysis and explaining what they can expect in their own care. Ron is an encourager to other patients, their family members and facility staff, and helps to empower those around him with his positive attitude.

Heroes are all around us.

Thank you Ron, for making quality kidney care possible.

IMPROVING LIVES THROUGH EMPOWERMENT

The DPC Hero Program spotlights individuals who have gone above and beyond to positively impact kidney care in their communities. If you are interested in nominating a DPC Hero, please contact us at dpc@dialysispatients.org.

Dialysis Patient Citizens (DPC) is a nonprofit patient organization dedicated to improving dialysis patients' quality of life by developing awareness of dialysis issues, advocating for dialysis patients, improving the partnership between patients and caregivers, and promoting favorable public policy. For more information, visit www.dialysispatients.org or call 1-866-877-4242.
